The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 936504 to Miyake or Anderson et al. Miyake (paragraphs 128-133,144) and Anderson et al. (col. 2, line 45-col. 3, line 45; experiments 1-4; example 1) disclose coating supports with positive photoresist compositions comprising photoacids and polymers from monomers with acid labile groups as set forth in the instant claims forming at least 50% of the polymers.

2. Kaneko et al. is cited of interest as disclosing acid labile acrylate polymers in photoresist compositions. The prior art cited by applicant has been considered.
